

## In case Of An Active Shooter

**Make a plan with your family, and ensure everyone knows what they would do, if confronted with an active shooter. Look for the two nearest exits anywhere you go, and have an escape path in mind & identify places you could use to hide. Understand the plans for individuals with disabilities or other access and functional needs.**

### RUN

- Evacuate the area
- Have an escape route (s) in mind
- Don't worry about going into restricted areas, any exit will do
- If you can safely escape do so quickly
- If you can help others escape do so quickly
- Do not try to escape through the area where the active shooter may cross your path
- Leave your belongings behind
- Keep your hands visible
- Don't give aid to the wounded
- Follow police instructions

### HIDE

- Get out of the shooter's view
- Provide coverage or protection if possible.
- Do not trap or restrict your movement.
- Lock the door
- Barricade the door (most doors open inward)
- Take a quick inventory to see what you can use to jam the door if barricading is not possible
- Turn off cell phone ringers & vibrations
- Stay Quiet

### FIGHT

- When your options of running or hiding are gone, attacking the shooter becomes a reality
- Throw things at the shooter or use objects to disrupt or incapacitate the shooter when practical
- Pre-plan if there is more than one of you and commit to your actions
- Fight for your life- it could well come down to you or the shooter.
