City of Brady Newsletter

JANUARY 2018

City Hall will be closed January 15th

Holiday Trash Schedule for MLK Day

Monday the 15th moved to Tuesday the 16th & Tuesday the 16th moved to Wednesday the 17th

There has been a high number of calls to the City Of Brady Police Department regarding vehicles traveling at high speeds in residential areas. We would like to remind everyone that unless posted otherwise, the speed limit in our residential areas is 30 miles per hour.

Defensive Driving Tips:

1. Never Drive Impaired
2. Buckle Up!
3. Pay attention
4. Do not speed
5. Drive confidently, not aggressively

DID YOU GET A TICKET?

Be sure to pay your fine by the deadline stated on your citation; failure to do so can result in additional fines and penalties including license suspension and an arrest warrant. Contact the City of Brady Municipal Court Clerk Valerie Gonzalez at 325-597-2152 ex 200 for information regarding Municipal Citations.

PREPARE YOUR HOME FOR WINTER

BEFORE COLD WEATHER SETS IN:

Check sprinkler or irrigation systems
Make sure you've turned everything off and fully drained the system.

Identify your home's freezing points
Check your home for pipes in areas that might be prone to freezing, such as crawl spaces, unheated rooms, basements, garages, and exterior walls.

Know how to shut off your water
Locate your main water shut-off valve. Hang the I.D. tag located on the back of this insert on the valve, so you can find it quickly in an emergency.

Strengthen your defenses
Eliminate sources of cold air near water lines by closing off crawl spaces, fixing drafty windows, insulating walls and attics, and plugging drafts around doors.

Protect your pipes
Where pipes are exposed to cold, wrap them with insulation or heat tape (even fabric or newspaper can help).

WHEN TEMPERATURES STAY BELOW FREEZING:

Give pipes a helping hand
If pipes run through cabinets or vanities, open the doors to let warmer room temperatures flow in.

Keep water working
Keep water moving through the pipes by allowing a small trickle of water to run. The cost of the extra water is typically lower than the cost of repairing a broken pipe.

BUT IF YOUR PIPES DO FREEZE:

Shut off the water immediately
Don't attempt to thaw pipes without turning off the main shut-off valve.

Thaw pipes with warm air
You can melt the frozen water in the pipe by warming the air around it with a hair dryer or space heater. Be sure not to leave space heaters unattended and avoid the use of kerosene heaters or open flames.

Be careful turning water back on
Once pipes are thawed, slowly turn the water back on and check pipes and joints for any cracks or leaks that might have been caused by freezing.
